

Short profile MINZE

The MINZE Language Promotion Project is a cooperation between the City of Mönchengladbach and Job Center Mönchengladbach.

The goals of the project are to provide clients receiving unemployment benefit II (Alg II) and in need of language support who are entitled to an integration or DeuFö course promptly with a suitable language course from literacy course to C1 level. After attending the language course, MINZE would help the participants to develop a perspective route planning for further qualification. Additionally, MINZE will also provide the clients with socio-educational support.

MINZE support and appointments are only provided to the clients after initial assessment and assignment by the Mönchengladbach job center.

At the same time, MINZE is the BAMF's test and reporting office for the city of Mönchengladbach.
